As we are all well aware, schedules for such events tend to run behind. To account for this, I have included five minutes of transition time for the last three groups.

Please aim to stay within your allotted 20-minute slot. If any group finishes their performance early, we will proceed to the next group ahead of schedule.

**We have also included an extra attachment featuring a parking site map and a layout of where each group will be positioned on the field. Typing “1615 Trojan Drive” into your GPS should get you pretty close to the location.**
